As a result of a restriction requirement made final in parent application Serial No. 09/328,574, filed June 9, 1999, Applicants submit this preliminary amendment in a divisional application therefrom for claiming the restricted method invention.

IN THE SPECIFICATION:

Replace the paragraph beginning at page 1, line 3, with the following paragraph:

This application is a divisional of application Ser. No. 09/328,574, filed June 6, 1999, which is a continuation-in-part of application Ser. No. 09/149,018, filed September 8, 1998, for which priority is claimed and whose disclosure is incorporated by reference. This application also is a continuation-in-part of pending application Ser. No. 08/398,259, filed March 3, 1995, for which priority is claimed; which in turn is a continuation-in-part of application Ser. No. 07/960,494, filed Oct. 13, 1992, now US Patent 5,538,796, for which priority is claimed.

IN THE CLAIMS:

It is respectfully submitted that the claims, as amended, disclose a novel and non-obvious invention which is patentable.

In the event the Examiner wishes to discuss any aspect of this preliminary amendment, please contact the undersigned at the telephone number indicated below.

Respectfully submitted,

David L. Narciso
